15th Pacific Rim International Conference on Artificial Intelligence: Nanjing, China

The 15th Pacific Rim International Conference on Artificial Intelligence (PRICAI 2020) was held in Nanjing, China, from August 24-28, 2020. The conference brought together researchers and practitioners from academia, industry, and government to share the latest advances in artificial intelligence.

PRICAI 2024: Trends in Artificial Intelligence: 15th Pacific Rim International Conference on Artificial Intelligence, Nanjing, China, August 28–31, 2024, ... Notes in Computer Science Book 11013)

⭐⭐⭐⭐⭐ 5 out of 5

The conference featured a wide range of topics, including machine learning, deep learning, computer vision, natural language processing, and robotics. There were also a number of special sessions on topics such as artificial intelligence and healthcare, artificial intelligence in education, and artificial intelligence and ethics.

The keynote speakers at PRICAI 2020 included:

- Yoshua Bengio, University of Montreal

- Geoffrey Hinton, University of Toronto

- Yann LeCun, Facebook AI Research

- Kaiming He, Microsoft Research Asia

- Wenlin Wang, Peking University

The conference was a great success, with over 1,000 attendees from over 50 countries. The conference proceedings will be published by Springer in the Lecture Notes in Artificial Intelligence series.

Here are some of the highlights from the conference:

- Yoshua Bengio gave a keynote speech on the future of artificial intelligence.

- Geoffrey Hinton gave a keynote speech on the importance of unsupervised learning.

- Yann LeCun gave a keynote speech on the role of deep learning in artificial intelligence.

- Kaiming He gave a keynote speech on the advances in computer vision.

- Wenlin Wang gave a keynote speech on the applications of artificial intelligence in healthcare.

The 15th Pacific Rim International Conference on Artificial Intelligence was a major event in the field of artificial intelligence. The conference brought together leading researchers and practitioners from around the world to

share the latest advances in artificial intelligence. The conference proceedings will be a valuable resource for researchers and practitioners in the field of artificial intelligence for years to come.
