Conference Overview

The 24th China Conference CCIR 2024 was held in Guilin, China, from September 27-29, 2024. The conference brought together leading experts and practitioners in computing research to share their insights and advance the field.

The conference featured a wide range of topics, including:

- Artificial intelligence
- Big data
- Cloud computing
- Cybersecurity
- Human-computer interaction
- Internet of things
- Machine learning
- Mobile computing
- Networking
- Operating systems
- Parallel and distributed computing
- Software engineering
- Theoretical computer science

Proceedings Volume

The proceedings volume of the 24th China Conference CCIR 2024 contains over 100 papers that were presented at the conference. The papers are organized into 12 tracks, each of which covers a specific topic area.

The tracks in the proceedings volume include:

- Artificial Intelligence
- Big Data
- Cloud Computing
- Cybersecurity
- Human-Computer Interaction
- Internet of Things
- Machine Learning
- Mobile Computing
- Networking
- Operating Systems
- Parallel and Distributed Computing
- Software Engineering
- Theoretical Computer Science

How to Free Download

The proceedings volume of the 24th China Conference CCIR 2024 can be Free Downloaded online at the following website:

About the Conference

The China Conference on Computer Science and Technology (CCIR) is an annual conference that brings together leading experts and practitioners in

computing research from China and around the world. The conference is sponsored by the Chinese Academy of Sciences and the Chinese Computer Federation.

The CCIR conference is a major forum for the exchange of ideas and the dissemination of new research results in computer science and technology. The conference also provides a platform for networking and collaboration among researchers from academia, industry, and government.

The 24th China Conference CCIR 2024 was a successful event that brought together leading experts and practitioners in computing research from China and around the world. The proceedings volume of the conference contains over 100 papers that capture the cutting-edge research presented at the conference. This volume is a valuable resource for researchers, practitioners, and students alike.
