The 9th International Conference on Post-Quantum Cryptography (PQC 2024) will be held in Fort Lauderdale, Florida, USA, from April 11-13, 2024. This is the premier event for experts and practitioners in the field of post-quantum cryptography, and it brings together leading researchers, industry professionals, and government officials to discuss the latest developments in this rapidly evolving area.

What is Post-Quantum Cryptography?

Post-quantum cryptography (PQC) is a new type of cryptography designed to resist attacks from quantum computers. Quantum computers are expected to be much more powerful than today's classical computers, and

they could break many of the encryption algorithms that we currently rely on to protect our data.

PQC algorithms are designed to be resistant to quantum attacks, even if quantum computers become a reality. This makes them a critical part of our future cybersecurity strategy.

Why Attend PQC 2024?

PQC 2024 is the leading event in the field of post-quantum cryptography. It is an excellent opportunity to hear from the world's leading experts, learn about the latest developments, and network with other experts in the field. PQC 2024 is also a great place to learn about potential career opportunities in the field of post-quantum cryptography.

Topics Covered at PQC 2024

- Post-quantum algorithms and protocols
- Implementations of post-quantum cryptography
- Applications of post-quantum cryptography
- Standardization of post-quantum cryptography
- Quantum cryptanalysis

Call for Papers

Researchers and practitioners are invited to submit papers to PQC 2024 on all aspects of post-quantum cryptography. Submissions should be original and unpublished, and they must be submitted by the deadline of October 15, 2023. More information about the submission process can be found on the conference website.

Registration

Registration for PQC 2024 will open in the fall of 2023. Early registration discounts will be available, so be sure to register early to save money.

Location

PQC 2024 will be held at the Westin Fort Lauderdale Beach Resort in Fort Lauderdale, Florida, USA. The hotel is located on the beautiful Fort Lauderdale Beach, and it offers a variety of amenities, including a pool, a spa, and several restaurants. The hotel is also close to a variety of shopping and dining options.

Hotel Accommodations

A block of hotel rooms has been reserved at the Westin Fort Lauderdale Beach Resort for PQC 2024 attendees. To book a room, please visit the conference website.

Transportation

Fort Lauderdale-Hollywood International Airport (FLL) is the closest airport to the conference hotel. The airport is located approximately 12 miles from the hotel, and it is served by a variety of airlines. Ground transportation options from the airport to the hotel are available, including taxis, ride-sharing services, and buses.

Sponsorship Opportunities

Companies and organizations are invited to sponsor PQC 2024. Sponsorship opportunities offer a variety of benefits, including visibility to a global audience of experts in the field of post-quantum cryptography.

Companies interested in sponsorship opportunities should contact the conference organizers.

More Information

For more information about PQC 2024, please visit the conference website at www.pqcrypto2024.org.
