In the rapidly evolving landscape of technology, intelligent systems are emerging as a transformative force, promising to revolutionize various aspects of our lives. Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811, published by Springer Nature, presents the latest research advancements in this captivating field, offering valuable insights for researchers, practitioners, and students alike.

This comprehensive volume encapsulates the proceedings of the 2024 International Conference on Emerging Human-Centric Applications in Information and Communication Technologies (Ehacon 2024),held in Kolkata, India. The conference brought together leading experts from

academia, industry, and government to share their cutting-edge research and explore innovative applications of intelligent systems.

Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811 covers a wide range of topics within the realm of intelligent systems, including:

- Artificial Intelligence (AI)

- Machine Learning (ML)

- Deep Learning (DL)

- Natural Language Processing (NLP)

- Big Data Analytics

- Data Science

- Computer Vision

- Robotics

- Intelligent Control Systems

- Intelligent Transportation Systems

- Intelligent Healthcare Systems

- Intelligent Manufacturing Systems

- Intelligent Energy Systems

- Intelligent Finance Systems

- Intelligent Security Systems

- Intelligent Education Systems

- Intelligent Agriculture Systems

The chapters in this book are meticulously organized into thematic sections, providing a cohesive and in-depth examination of the latest developments in each area. Authors from around the globe contribute their specialized knowledge and research findings, offering a diverse perspective on the field of intelligent systems.

One of the key strengths of Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811 is its focus on practical applications. The book showcases real-world case studies and innovative solutions that demonstrate the transformative power of intelligent systems across various domains.

For instance, one chapter explores the use of AI and ML in developing intelligent healthcare systems that can improve patient outcomes, reduce healthcare costs, and enhance overall patient experience. Another chapter presents a novel approach to utilizing NLP and big data analytics for sentiment analysis, helping businesses gain valuable insights into customer feedback and舆论.

Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811 is not just a collection of research papers; it is a valuable resource for anyone interested in staying at the forefront of this rapidly evolving field. Researchers will find inspiration for their own investigations, practitioners will discover innovative solutions to real-world problems, and students will gain a comprehensive understanding of the fundamental principles and emerging trends in intelligent systems.

Published by Springer Nature, a world-renowned publisher of scientific and academic literature, Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811 is a must-have addition to the libraries of researchers, practitioners, and students in the fields of computer science, engineering, and information technology.

To Free Download your copy of Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811, please visit the Springer Nature website at https://www.springer.com/gp/book/9783031181725.

Unlock the future of computing with Ehacon 2024 Kolkata India Advances In Intelligent Systems And Computing 811 – a comprehensive compendium of cutting-edge research and innovative applications in the field of intelligent systems.
