

Factories Of The Future: The Italian Flagship Initiative

The Factories Of The Future (FoF) is an Italian Flagship Initiative that aims to support the development of advanced manufacturing technologies and processes in Italy. The initiative is funded by the Italian Ministry of Economic Development and is managed by the National Research Council of Italy (CNR).

The FoF initiative is part of Italy's Industry 4.0 strategy, which aims to make the country a leader in the development and adoption of advanced manufacturing technologies. The initiative is also aligned with the European Union's Horizon 2020 research and innovation program, which aims to support the development of new technologies and processes that can help Europe compete in the global economy.
