Textbook of Neurointensive Care: The Definitive Guide for Clinicians

The Textbook of Neurointensive Care is the definitive guide for clinicians who care for patients with neurocritical illness. This comprehensive resource provides up-to-date information on all aspects of neurointensive care, from diagnosis and management to prognosis and rehabilitation.

Written by a team of leading experts in the field, the Textbook of Neurointensive Care is an essential resource for neurologists, neurosurgeons, intensivists, and other healthcare professionals who care for patients with neurocritical illness.

The textbook is divided into six sections, each of which covers a different aspect of neurointensive care:

- Pathophysiology of Neurocritical Illness
- Diagnosis of Neurocritical Illness

- Management of Neurocritical Illness
- Prognosis and Rehabilitation of Neurocritical Illness
- Ethical Issues in Neurointensive Care
- Special Topics in Neurointensive Care

Each section is written in a clear and concise style, and is illustrated with helpful figures and tables. The textbook also includes a number of case studies, which provide real-world examples of the application of neurointensive care principles.

The Textbook of Neurointensive Care is an essential resource for clinicians who care for patients with neurocritical illness. This comprehensive resource provides up-to-date information on all aspects of neurointensive care, and is written by a team of leading experts in the field.

Table of Contents

- Section 1: Pathophysiology of Neurocritical Illness
 - Chapter 1: Cerebral Ischemia and Reperfusion
 - Chapter 2: Intracerebral Hemorrhage
 - Chapter 3: Subarachnoid Hemorrhage
 - Chapter 4: Traumatic Brain Injury
 - Chapter 5: Spinal Cord Injury
- Section 2: Diagnosis of Neurocritical Illness
 - Chapter 6: Neuroimaging

- Chapter 7: Electroencephalography
- Chapter 8: Evoked Potentials
- Chapter 9: Transcranial Doppler Ultrasound
- Chapter 10: Cerebrospinal Fluid Analysis
- Section 3: Management of Neurocritical Illness
 - Chapter 11: Airway Management
 - Chapter 12: Mechanical Ventilation
 - Chapter 13: Hemodynamic Management
 - Chapter 14: Fluid and Electrolyte Management
 - Chapter 15: Nutritional Support
- Section 4: Prognosis and Rehabilitation of Neurocritical Illness
 - Chapter 16: Prognosis of Neurocritical Illness
 - Chapter 17: Rehabilitation of Neurocritical Illness
- Section 5: Ethical Issues in Neurointensive Care
 - Chapter 18: End-of-Life Care in Neurocritical Illness
 - Chapter 19: Withholding and Withdrawing Life-Sustaining
 Treatment
- Section 6: Special Topics in Neurointensive Care
 - Chapter 20: Neurocritical Care of the Elderly
 - Chapter 21: Neurocritical Care of the Child

- Chapter 22: Neurocritical Care of the Pregnant Patient
- Chapter 23: Neurocritical Care in the Developing World

About the Authors

The Textbook of Neurointensive Care is written by a team of leading experts in the field of neurocritical care. The authors have extensive experience in the care of patients with neurocritical illness, and have published extensively on various aspects of neurointensive care.

The editor-in-chief of the Textbook of Neurointensive Care is John Eargle, MD. Dr. Eargle is a Professor of Neurology and Neurosurgery at the University of California, San Francisco. He is also the Director of the Neurocritical Care Unit at the University of California, San Francisco Medical Center.

The Textbook of Neurointensive Care is an essential resource for clinicians who care for patients with neurocritical illness. This comprehensive resource provides up-to-date information on all aspects of neurointensive care, and is written by a team of leading experts in the field.

Reviews

"The Textbook of Neurointensive Care is the definitive guide for clinicians who care for patients with neurocritical illness. This comprehensive resource provides up-to-date information on all aspects of neurointensive care, and is written by a team of leading experts in the field." - **Journal of**

Neurosurgery

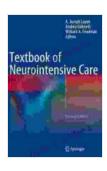

"The Textbook of Neurointensive Care is an essential resource for neurologists, neurosurgeons, intensivists, and other healthcare professionals who care for patients with neurocritical illness. This comprehensive resource provides up-to-date information on all aspects of neurointensive care, and is written by a team of leading experts in the field." - Critical Care Medicine

"The Textbook of Neurointensive Care is a valuable resource for clinicians who care for patients with neurocritical illness. This comprehensive resource provides up-to-date information on all aspects of neurointensive care, and is written by a team of leading experts in the field." - **Neurology**
